

Sport Schedule Access

The Oakridge School District has developed an easy and convenient web site to provide the students and community access to the most updated schedules for every sport the District provides. Everyone can simply look up a schedule with a few clicks (and print the schedule if desired) without even creating an account to access the site.

For users that want to be more in the know, they can create an account and download the app for their phone (android or iPhone) and designate specific information they want updated. Want to know if the time has changed for your son’s basketball game? Set alerts for that sport! Alerts will notify users the instant a change in logged on one of their followed schedules. The best part about this system? You only have to create it once and year after year, it will automatically update with the newest schedules.

If you just want a schedule and maybe print it, follow the below directions:

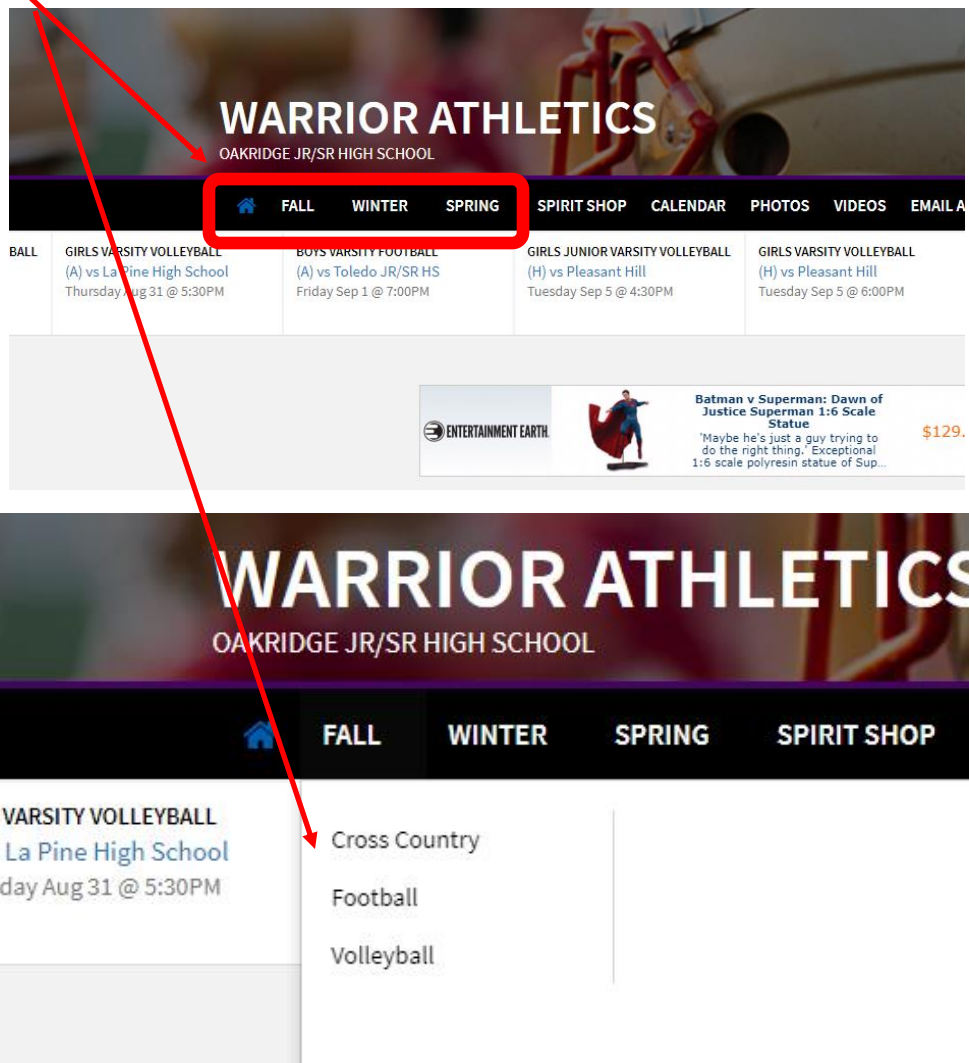

1. Go to Oakridge School District Web Site (www.oakridge.k12.or.us) and click on the “Athletics” link at the top:

2. Click on “Schedules for all Sports” on the Athletics page:

3. Select the season and sport from the top of the page that loads:

4. Once the specific season/sport/level (varsity/JV/Jr High) is selected you will see the full schedule displayed. You can easily print a copy of the schedule from that page:
